### Cages and feeding

Our cages are a little smaller than the official EE-cages. The size is 30x40 cm. We will provide extra shavings to clean wet cages during the weekend. We provide hay for all guinea pigs, but ask you to bring your own water bottles, food dishes, dryfood and greens. We will also provide a staff to ensure that every guinea pig has food and water, if some run dry during the show.

Cages will be closed off at the rear end, so that the guinea pigs can't touch each other. On the sides the cages do not touch each other by 4 cm. If you prefer to have your cage fully enclosed on all 3 sides, bring a towel or small blanket to put over it.

### **Vetting/Check-in rules:**

All guinea pigs entering the show (to be shown or sold) must be vetted. **We do not allow guinea pigs to stay in the cars at the area of the show.** Guinea pigs who are already sold will be put in a separate room until they go to their new owner (the Transit, please look above). We exclude guinea pigs suspected of contaminating diseases. Please note, this is to protect all of the guinea pigs.

The following signs on one or more guinea pigs will exclude **all** of the guinea pigs from that stable/household:

- Symptoms of mange/sellnick including sores/lesions, hairloss, irritated skin, greasy dandruff.
- Symptoms of ringworm/fungus
- Running lice
- Itching and flaky white dandruff/cheyletiella
- Several guinea pigs with diarrhea

The following will exclude the single guinea pig it is found upon:

- Pregnancy
- Too small (must weigh more than 350 g for a guinea pig for sale, and more than 500 g for a guinea pig for show). Small babies will be weighed. Age minimum for babies are 4 weeks.
- Open sore/wound
- Lip sores
- Abscess, often found in the region of the throat
- Very poor condition (very skinny, purulent discharge from eyes or nose, diarrhea)

The following is **not** cause for exclusion:

- Static lice (but will give a deduction in points at the pet show)
- Nose stripe

### **Entering Denmark with cavies:**

There is no need for an official health check to enter the country. Just write a statement saying that you travel with your guinea pigs for a show and are not going to sell them and who is responsible for them. An example of such a statement is sent to the contact person of your country. You can bring as many as you like.
